

TMAI wins second consecutive AsianInvestor 2010 Investment Performance Award in Asia ex-Japan equity category

May 14, 2010 Tokio Marine Asset Management International Pte. Ltd. ("TMAI"), a 100% owned subsidiary of Tokio Marine Asset Management Co., Ltd. ("TMA"), announced that it has won the AsianInvestor 2010 Investment Performance Award for the Asia ex-Japan equity category. This is the second consecutive year that TMAI has won the Award.

The investment team at TMAI is led by Hiroshi Yoh, Managing Director and Chief Investment Officer, a veteran who has been with the Tokio Marine Asset Management group since 1998 and has more than 20 years of investment experience.

Commenting on the award by AsianInvestor, Mr. Yoh said, "This is a great honour for TMAI as a young company to win this award for two consecutive years against strong competition from all the big houses. We are very honoured to be recognised again for our consistent and sustained performance over various periods, especially through the depressed markets of 2008 and their remarkable subsequent recoveries in 2009. This is attributed to our proven and disciplined investment process and the investment team who is always focusing on both seeking the best return and cultivating strong risk awareness."

TMAI Asian equity products are gaining increasing attention in Europe and Asia, especially among institutional investors and asset/investment consultants, due to both the prospects of the Asian markets and TMAI's strong track record. With this award, TMAI hopes to make further inroads into the Asian, European and the Japanese markets by offering their services to these prudent long term investors.
